Client: Halter Ag
Size: 6,000m²
Value: Undisclosed
Status: Complete
Key Staff: Tony Fretton, Jim Mckinney, David Owen

A new apartment building in Neuhausen overlooking the Rheinfalls.

The contractor recently handed over this building that we won in competition, of 60 apartments at Industrieplatz in the Swiss town of Neuhausen Am Rheinfall on 26 08 2022, its unique quality, is that it looks out to the west across a magnificent and widely visited waterfall. The building is highly glazed on this side to capitalise on the view and to make it reflective so as to reduce its impact on Neuhasuen's skyline.

Facing industrieplatz the facades are more substantial and constructed of stucco and concrete that is textured on both the horizontals and verticals elements.
